## Buru Energy eyes commercialisation pathway for Rafael discovery

Buru Energy Ltd (ASX:BRU, OTC:BRNGF) CEO Thomas Nador talks to Proactive's Elisha Newell about the commercialisation pathway for the company's Rafael gas and condensate resource in WA's Canning Basin. Together with Transborders Energy, Buru has identified a technically, commercially and economically feasible option to commercialise Rafael using a Kimberley-based floating liquified natural gas (FLNG) plant solution. Nador says the option, as outlined in a pre-feasibility study, could also offer a relatively lower cost and shorter time frame to development than alternative gas export options.
